DRILLING CONSOLES

ELECTRO-FLOW
CONTROLS

DESCRIPTION

A family of Drilling Consoles, designed to provide key information on clear, simple displays, but using a PLC for software based data processing. This approach allows data to be networked to drill floor screens, rig and office terminals for Toolpusher and Company Man's use, or to interface with Mudlogging equipment.

DC 35 CONSOLE

- Cold climate version, with internal heater/ thermostat
- Stainless steel panel engraved with Russian language labelling
- Plug and socket connectors for cables and hydraulic lines
- Full sensor set, cables and junction boxes

DC 85 CONSOLE

- Triple, stainless steel console sections, tailored to fit available space
- Display redundancy with twin, flat screens, plus analogue and digital displays
- Third party Topdrive and Pipehandler controls mounted into the console
- Console sections for Weight Indicator and Driller's TV

DC 85 CONSOLE
