Torque

Drilling Recorder

Tong Torque Indicator

Pit Volume Totaliser

Flow Monitor

Rotary Table / Top Drive

Choke Pressure Display

Weight Indicator

# SINGLE INSTRUMENTS

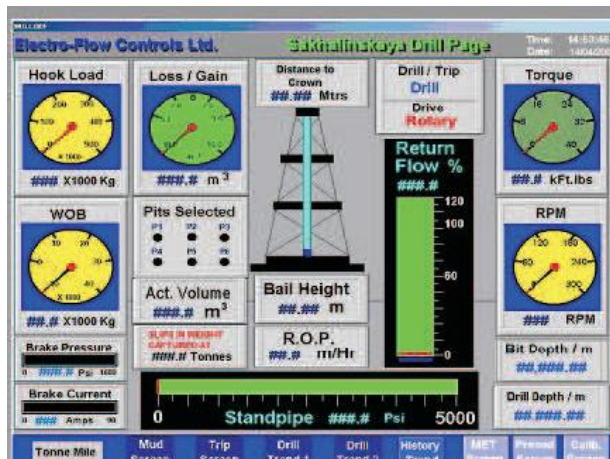

## SCREEN BASED DRILLING INSTRUMENTATION

EFC's client-driven systems ensure solutions are 100% tailored to requirements, removing issues often associated with "off-the-shelf" products that have to be adapted.

EFC has developed a PC/PLC based data processing and display system with an extensive track record. 1000s of successful operating hours have been completed offshore Brazil, North Sea, Middle East, Gulf of Mexico etc. EFC's open-architecture approach allows signals from existing sensors to be re-used.

### DRILLING DATA CAN BE

- Recorded
- Archived
- Remotely Transmitted
- Tailored to Clients Specifications

Complete drilling instrumentation and controls package
